

Vaultwarden / Bitwarden

Instead of 1Password or Keepass, Scientific IT now offers a vault.vogelwarte.ch service.

- [Installation of Clients](#)
- [Move Collections](#)

Installation of Clients

There are different clients for Windows, Linux and MacOS and it exists also Plugins for every browser - you have to install the **Bitwarden Client**:

1. Download and install it:
 - [Windows Executable](#)
 - [others](#)
2. You have to configure under **Logging in on:** as *self-hosted*. Add in the URL `https://vault.vogelwarte.ch`.
3. Login with vogelwarte.ch E-Mailaddress and your masterpassword into your vault!
4. Under settings you can manage some easier login f. e. biometrics

Add other user to shared vaults / collections

[Bitwarden+PW-Management.doc](#) (german created by the Web-Team - Thx)

Move Collections

- You have to go to the administration section (Admin Console) on the web client of vaultwarden under <https://vault.vogelwarte.ch>
- Check if you're in the right tresor (organisation)
- And then you have to edit the information on level of the collection!

The screenshot shows the Vaultwarden Admin Console interface. The left sidebar contains navigation options: Scientific IT (highlighted), Tresor, Mitglieder, Berichte, and Einstellungen. The main content area displays the 'Scientific IT tresor' and the 'development' collection. A 'FILTER' section is visible with a search box. The main table lists collections with columns for 'Name' and 'Berechtigung'. The 'popmon' collection is highlighted, and its context menu is open, showing options like 'Informationen bearbeiten', 'Zugriff', and 'Löschen'.

<input type="checkbox"/>	Name	Berechtigung	
<input type="checkbox"/>	bird_migration	Darf bearbeiten	
<input type="checkbox"/>	geonode	Darf bearbeiten	
<input type="checkbox"/>	popmon	Darf bearbeiten	Informationen bearbeiten
<input type="checkbox"/>	rice	Darf bearbeiten	Zugriff
<input type="checkbox"/>	terrimap online	Darf bearbeiten	Loschen

- Move the collection to another place/collection

Sammlung bearbeiten development/popmon
