

# Move Collections

- You have to go to the administration section (Admin Console) on the web client of vaultwarden under <https://vault.vogelwarte.ch>
- Check if you're in the right tresor (organisation)
- And then you have to edit the information on level of the collection!

The screenshot displays the Vaultwarden Admin Console interface. The top left corner shows the 'Vaultwarden Admin Console' logo. The main header area includes 'Scientific IT tresor' and 'development' (selected). A 'Neu' button and a user profile icon 'SH' are visible in the top right. The left sidebar contains navigation options: 'Scientific IT', 'Tresor', 'Mitglieder', 'Berichte', and 'Einstellungen'. The main content area features a 'FILTER' section with a search bar and a list of collections. The 'development' collection is expanded, showing sub-collections like 'bird\_migration', 'geonode', 'popmon', 'rice', and 'terrimap online'. A table lists these collections with their respective permissions. The 'popmon' collection is highlighted, and a context menu is open over it, showing options: 'bearbeiten', 'Informationen bearbeiten', 'Zugriff', and 'Löschen'. The 'Informationen bearbeiten' option is circled in red. At the bottom left, there are buttons for 'Password Manager' and 'Admin Console', with the latter also circled in red.

<input type="checkbox"/>	Alle	Name	Berechtigung	:
<input type="checkbox"/>		bird_migration	Darf bearbeiten	:
<input type="checkbox"/>		geonode	Darf bearbeiten	:
<input type="checkbox"/>		popmon	Darf bearbeiten	:
<input type="checkbox"/>		rice	Darf bearbeiten	:
<input type="checkbox"/>		terrimap online	Darf bearbeiten	:

- Move the collection to another place/collection
